Artifact 9

The screenshot displays a Trello board titled "Sprint 5 Done" with three columns. Each card represents a task, featuring a progress bar at the top, a description, a priority indicator (eye icon), and assignee tags (circles with initials).

Column	Task	Progress	Priority	Assignees
Column 1	add git ignore for package lock json [1]	Yellow bar	Low	SK
	Install the node daemon for easy development on the backend [1]	Green bar	Medium	TT
	front end - grab messages from server and show them to the screen [2]	Red bar	High	PM, TT
	add a better room page [3]	Red bar	High	PM, SK
	clean front end files that aren't relevant anymore [1]	Green bar	Medium	PM
Column 2	Iterate on read me (add trello link and other useful information) [1]	Green bar	Medium	PM, SK, SS, TT
	add angular tests for current functionality [3]	Red bar	High	PM, TT
	Setup socketio to announce messages and better read them	Green bar	Medium	SS
	clean back end file that aren't being used anymore [1]	Green bar	Medium	SK, SS
Column 3	Create Host Env Variable on server [1]	Orange bar	High	SS
	clean file structure for backend [1]	Green bar	Medium	SS
	change setup file so it also runs the server or make additional script for that [1]	Green bar	Medium	PM, SK, SS, TT

At the bottom of the third column, there is a button labeled "+ Add a card" and a small icon of a document.
