Sprint 3 retrospective

Participants: Tim, Philip, James (scrum master), Zak

We did well:

- We finished our main focus cards – Philip
 - We have managed to communicate our progress/and accomplishments well - tim
 - We got a better understanding of what was expected from our final deliverable and made changes accordingly – James

Needed Improvements:

- A lack of motivation during the second half because first half was a big rush.
 - o Implement card priorities
 - o Ensure the team understands exactly what they should do this sprint.
- Make an effort to make the pieces more connected (we have been a little bit everywhere) - Tim
 - o split into teams and rotate teammates.
- The cards were not detailed enough/ did not have enough forethought put into them – James
 - o utilize the backlog grooming better and make it a team effort.
 - o Implement peer reviews and PR's better -- James

Finished 6 cards out of 6 cards.

General notes:

- We need to focus more on test driven development (this will be a main focus of sprint 3).
 - o Get with Zak about mocha findings
